<u>Programmer(s)</u>
Chezka Gaddi + Dillon Roller

<u>Grade</u>
87

<u>Correctness</u>
Program builds from makefile.
Program runs correctly.
Constructors: LargeInt objects are properly initialized to unsigned ints and other LargeInts.
However, Polynomial constructor uses vector (**explicitly forbidden**).
Uses zero nodes.
Implemented string constructor (+2).

Input works properly (but uses zero nodes).
However, outputs leading zeros.

Comparisons work properly.
Assignments work properly.
Addition is correct.
Multiplication is correct.
ASL was used

<u>Style</u>
Readability: good

Modularity: good
Files have nondescriptive names (cgfunc.cpp and DRfunc.cpp). Code is arbitrarily distributed.

Documentation: good

<u>Teamwork</u>
Workload: good
Regular updates to repo from both team members.

Team skills: good

Roller did not submit teamwork evaluation form (-5).
